

## Help prevent the spread of Avian diseases by Cleaning Your Bird Feeders

1. Wear gloves
2. Clean feeder of old seeds / etc.
3. Soak in bucket or basin of water & 10% bleach for 10 minutes and let air dry.
4. Keep area under feeder clean
5. Change bird bath water daily

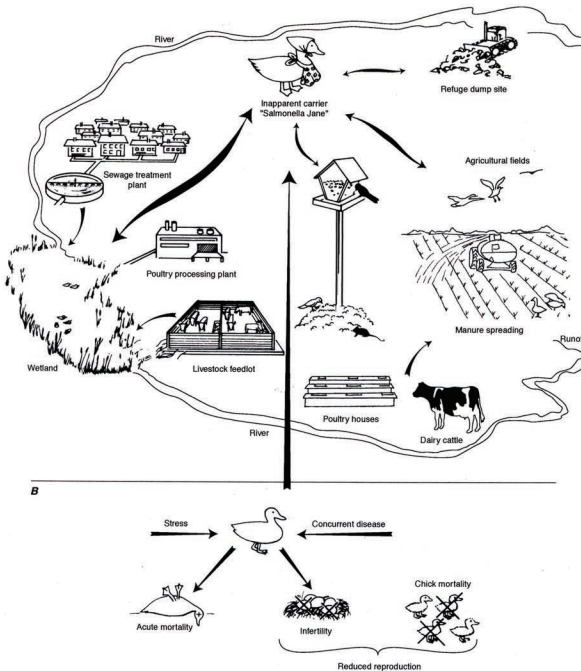

Figure 9.8 (A) Sources and (B) consequences of salmonellosis in wild birds.
